Tata Passenger Vehicles Expand Their Reach Across Sri Lanka

DIMO expanded its Tata Passenger Vehicle showroom network by opening new showrooms in Kandy and Batticaloa and enhancing accessibility and convenience for customers in response to the growing demand across the country.

The new facilities offer a modern and immersive experience, showcasing the full Tata Passenger Vehicle range while delivering reliable aftersales support. With this addition, the network now spans Altair Colombo, Kurunegala, Galle, Polonnaruwa, Kandy, and Batticaloa, further strengthening DIMO's island-wide presence and commitment to providing a seamless and customer-focused mobility experience.

DIMO's Agri Talent Shines on the Global Stage

Mahindra & Mahindra conducted the League of Champions Global Competition for the fourth consecutive year, recognising excellence among business partners across 52 countries. The Sri Lanka Country-Level Assessment was held on 14th November 2025 at the DIMO Weliveriya Logistics Center, covering three categories: Technicians, Service Advisors, and Spare Parts Personnel. Top performers from each category were selected to represent DIMO at the global-level competition. Wajira Nuwan (Technicians), Jeyakumar Elangovan (Service Advisors), and Deemantha Wanasinghe (Spare Parts) emerged as country-level winners, each receiving USD 150.

Winners

- Pathmasiri Pathmasiri (Winner – Mahindra Technician)
- Kaveesha Induranga (Winner – Swaraj Technician)
- Deemantha Dilip Kumara (Rise & Shine Awards – Spare Parts)

Winners were invited to attend the Grand Award & Felicitation Ceremony in India in February 2026, alongside over 850 participants from 28 countries. This achievement highlights the strength of DIMO's Agri Machinery After-Sales team and their readiness to compete and succeed on a global stage.

EHS Exposure Visit at INSEE Cement Plant

The DIMO Compliance Team organised an exposure visit to the INSEE Cement Plant in Puttalam for Environmental Health & Safety (EHS) Committee members on 20th March, providing valuable insights into the plant's operations and safety best practices. Participants observed key safety measures such as Lockout-Tagout (LOTO) procedures, proper use of Personal Protective Equipment (PPE), and systematic tool inspection and traceability, along with structured risk control and monitoring practices. EHS representatives from workshops, stores, the Agri Fertilizer division, and the Facilities department took part in the visit, enhancing their practical knowledge of effective workplace safety standards.

Engineering Minds at the DIMO-MTU Technical Forum

The DIMO-MTU Technical Forum 2026 was held on 20th March 2026 at Cinnamon Life City of Dreams, bringing together key stakeholders to share global engineering insights and innovations. The forum served as a platform to further strengthen the long-standing collaboration between DIMO and MTU, while showcasing DIMO's engineering capabilities and expertise in marine and general engineering solutions.

The event highlighted the latest advancements in global engineering practices, fostering knowledge exchange and meaningful discussions among industry professionals. It also reinforced DIMO's leadership position in Sri Lanka's marine and general engineering sectors, reflecting a continued commitment to innovation, partnership, and delivering world-class engineering solutions.

Partnering with Hatton National Bank for Flexible Leasing

DIMO Construction & Mining Machinery Division signed an MOU with HNB Bank to offer islandwide leasing facilities, enhancing access to world-class machinery through flexible and tailored financing solutions. This collaboration enables customers to acquire advanced equipment with greater financial convenience, supporting business expansion, improved operational efficiency, and timely project execution. By bridging access to high-quality machinery with accessible financing, the initiative also contributes to enhanced service delivery and the continued development of infrastructure across Sri Lanka, reinforcing DIMO's commitment to enabling progress through innovative and customer-centric solutions.

Strengthening Sustainability Awareness

IMPACT 360, a sustainability-themed quiz held on the 25th of March 2026 brought together 20 members of the DIMO Tribe with the objective of creating sustainability awareness. Each round of the quiz offered a unique experience, covering a wide range of sustainability topics from fundamental concepts to emerging global trends.

- Champions – The Sentinels
- 1st Runners-Up – Mercedes-Benz & DIMO Ltd
- 2nd Runners-Up – Think Green Crew

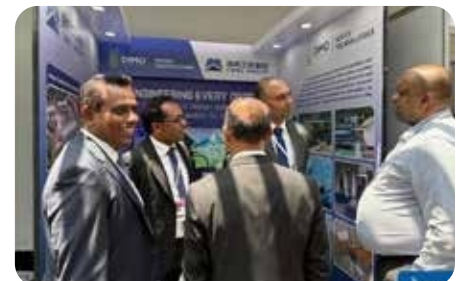

Advancing Cardiac Care Through Knowledge and Innovation

DIMO Healthcare participated in the Back-to-Basics 2026 academic session in Kandy organised by the Sri Lanka College of Cardiologists in collaboration with the Cardiology Unit of the National Hospital Kandy. The event provided a valuable platform to engage with healthcare professionals, showcase the latest cardiology solutions, and exchange insights on emerging trends and innovations shaping Sri Lanka's healthcare landscape, reinforcing DIMO Healthcare's commitment to advancing cardiac care nationwide.

Advanced Water and Fluid Management Solutions at the IWA Water Safety Conference 2026

DIMO participated in the IWA Water Safety Conference & Exhibition held on 23rd and 24th March 2026 in line with World Water Day. Together with CMEC Group, DIMO showcased seamless, end-to-end water and fluid management solutions designed to optimize every drop and support a more sustainable Sri Lanka. From water supply and treatment to advanced fluid handling systems, these solutions deliver reliability, efficiency, and sustainability, contributing to the nation's evolving infrastructure needs.

Platinum Partnership Renewal with CIMA

DIMO has strengthened its long-standing alliance with CIMA by renewing its status as a Platinum Partner for 2026, with the recognition formalized at the CIMA President's Reception 2026 held at Cinnamon Life. The event was graced by Mr. John Graham, FCMA (UK), CGMA, President of CIMA and Co-Chair of the Association of International Certified Professional Accountants, highlighting the significance of this continued collaboration.

Jeep Owners Take Adventure Off the Road in Kalpitiya

The Jeep Club of Sri Lanka (JCSL) organised an exclusive expedition to Kalpitiya, bringing together Jeep Gladiator, Wrangler, Cherokee, and Grand Cherokee owners for a memorable off-road experience. The sand dunes at the Great Western Edge provided the ideal terrain to showcase the capability of the iconic Jeep lineup, while the breathtaking sunset overlooking the Indian Ocean offered the perfect moment for relaxation and connection among enthusiasts and their families. The true spirit of freedom, adventure, and capability was reflected throughout the experience, highlighting the unique culture of Jeep ownership.

DIMO Nature Club Marks Its 4th Anniversary

The DIMO Nature Club marked its 4th Anniversary, celebrating its commitment to volunteerism and conservation with the participation of over 130 members. The event featured a session by Nishshanka De Silva, founder of the Zero-Plastic Movement, on volunteerism and conscious consumerism, and also welcomed corporate and project partners. A key highlight of the proceedings was the recognition of 23 Nature Club members and four field guides for their consistent engagement and volunteerism.

Mercedes-Benz Brings Luxury and Innovation to Ratnapura

The Mercedes-Benz Star Experience arrived in Ratnapura, bringing the prestige of the Three-Pointed Star closer to enthusiasts in the “City of Gems.” The event blended luxury and technical expertise, featuring an exclusive Mercedes-Maybach alongside the latest Mercedes-Benz lineup, including the C-Class and the versatile SUV range such as the GLE and GLS, offering customers a first-hand experience of automotive excellence.

The Ratnapura edition marked another successful step in connecting with customers across the island, reinforcing DIMO’s commitment to delivering premium experiences and driving automotive excellence in Sri Lanka.

DIMO Backs Ananda Rugby with Platinum Sponsorship

DIMO onboarded as the Platinum Sponsor of Ananda Rugby for the 2026 season. “Scrum for Ananda 2026,” the official team launch, was held at the Grand Maitland, Colombo 07, in the presence of distinguished past pupils of Ananda College, former ruggerites, well-wishers and sponsors.

Raising the Bar for Progressive Luxury with the All-new Mercedes-Benz CLA

The All-New Mercedes-Benz CLA 2026 was unveiled in Sri Lanka, introducing a new standard of progressive luxury and next-generation innovation. Recognised as the Car of the Year, the new CLA combines intelligent technology, refined design, and dynamic performance.

Driven by 140 years of Mercedes-Benz engineering excellence and strengthened by DIMO's 85+ years of Authority in Automotive Excellence, the model sets a new benchmark for modern mobility in the country. The launch was held at Havelock City Mall on 24th and 26th of April, featuring popular Sri Lankan influencers and an exclusive appearance by Young racing star Yevan David.

Advancing Radiology Through Knowledge and Collaboration

DIMO Healthcare, together with its principal Siemens Healthineers, partnered with the Sri Lanka College of Radiologists and Radiology Across Border - a Global Charity in Australia to organise the College's second Continuous Medical Education programme on 5th April 2026 at Jetwing Colombo 7. The session provided a valuable platform for healthcare professionals to exchange knowledge, share experiences, and discuss evolving needs and advancements in the healthcare sector.

Turtle Conservation Program at Wellawatta Beach

Members of the DIMO Nature Club visited Wellawatta Beach for a turtle patrolling program on the 28th of March 2026, marking the end of the nesting season. The team collaborated with TACHU (Turtle & Coastal Health United Program) during an overnight session, where representatives shared valuable insights on conservation practices and the importance of protecting marine ecosystems.

During the visit, volunteers participated in releasing hatchlings from two nests and witnessed an Olive Ridley turtle laying eggs, an unforgettable experience. The programme also highlighted the critical role of responsible waste management and its direct impact on wildlife conservation.

Engineering Excellence at the Maldives Build Expo 2026

DIMO proudly participated in the Maldives Build Expo 2026, showcasing engineering expertise across a diverse portfolio of solutions, including construction machinery, storage and material handling systems, automated car parking solutions, water solutions, and industrial engineering technologies.

Adding to the success of the exhibition, DIMO was honoured with the “Most Preferred Stage Activity” award. The event provided a valuable platform to engage with visitors and industry stakeholders, strengthen relationships, and demonstrate DIMO’s commitment to powering progress through innovative and reliable engineering solutions.

LMD Highlights DIMO’s Commitment to Ethical Governance

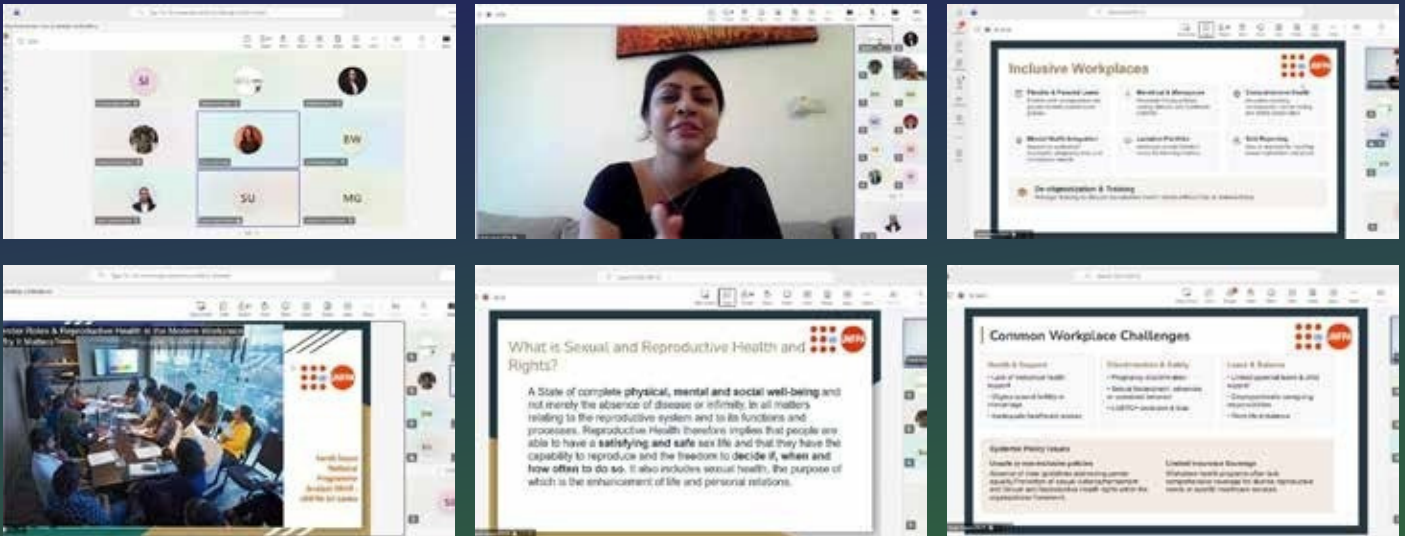

The May 2026 issue of the LMD Magazine highlighted how DIMO continues to strengthen stakeholder confidence by fostering ethical governance, sustainable value creation, and long-term partnerships that drive mutual growth.

The 15th Episode of Sustainability & You Explores Gender Roles

The fifteenth episode of Sustainability & You, focusing on Gender Roles & Reproductive Health in the Modern Workplace, was conducted on 31st March 2026. The online session was moderated by a Tribe Member, while the session was conducted by Sarah Soysa, National Programme Analyst – Sexual & Reproductive Health, UNFPA, and Working Group Head, Diversity & Inclusion – UN Global Compact Network Sri Lanka.

Rooted & Reimagined: Future of Sustainable Business at DIMO

Rooted & Reimagined, the Sustainability Mini Summit, was successfully held on the 8th of May 2026 at the DIMO 800 Auditorium with the participation of over 100 attendees, including members from the GMC, external partners, and colleagues from across the DIMO Tribe. The summit focused on integrating sustainability into the core of business operations, highlighting its role in driving long-term profitability and resilience. A key milestone of the event was the unveiling of the progress of the DIMO Sustainability Agenda 2030 together with an agenda supported by data-driven KPIs.

The summit featured several engaging sessions led by industry experts.

- **Strategy in Sync:** Randhula De Silva and Arj Wignaraja (Goodlife X) explored reimagining business models through the lens of sustainability.
- **The Community Pulse:** Chathuranga Abeysinghe (Deputy Minister of Industry & Entrepreneurship Development) highlighted the critical role of data in measuring social impact.
- **Rights-based Wellness:** Sarah Soysa (National Program Lead, UNFPA Sri Lanka) discussed the importance of sexual and reproductive health and rights-based discussions within the workplace.
- **Designed for Earth:** Heminda Jayeware (Executive Director, TRACE Sri Lanka) showcased how innovation serves as the core of sustainable development.

The event concluded with an insightful panel discussion titled “The Cultural Core,” focusing on the practical application of sustainability at DIMO. The panel featured Director / CFO of DIMO Mr. Suresh Gooneratne, Executive Director / CHRO of DIMO, Ms. Dilrukshi Kurukulasuriya, Executive Director Mr. Rajeev Pandithage, and CMO Mr. Dinuk Peiris, and the session was expertly moderated by Ms. Janani Wijethunge, Head of Programmes & Governance at UN Global Compact Network Sri Lanka.

Echelon Highlights DIMO's Trust-Led Leadership

BRAND VOICES

Silvath Pandithage
Group Managing Director
and CEO of DIMO

DIMO CREDITS TRUST-LED LEADERSHIP MODEL FOR DECADES-LONG PARTNERSHIPS

Transparent leadership, culture, and brand stewardship are core to sustaining global relationships.

Stewardship Over Ownership
One word comes up repeatedly in the conversation: stewardship. "We don't see ourselves as owners of these brands," Pandithage says. "We are custodians. It's a mindset that shifts how decisions are made."

Trust That Travels Across Borders
For global principals sitting in Germany, USA, India, China, or elsewhere, the challenge is often distance. They rely on local partners to represent them with the same standards they would uphold themselves. "That confidence doesn't come overnight," Pandithage says. "It's built over years, sometimes decades of doing what you said you would do."

Speed, Cost, and Confidence
Pandithage refers to an idea from Stephen M.R. Covey's "The Speed of Trust", that when trust goes up, speed increases and costs come down. "You see it clearly in business," he says. "The low trust relationships, everything slows down. More checks, more approvals, more legislation. Anyone who has worked in such an environment would recognize it instantly. But when trust is high, decisions happen faster. You don't second-guess every move. You can focus on moving forward."

In a World Moving Faster
As businesses globally lean into AI, automation, and digital systems, there is a tendency to assume that human elements will matter less. Pandithage sees it differently. "Technology can make you more efficient," he says. "But it cannot build relationships."

The Asset You Can't Measure
If you look at a balance sheet, you won't find trust listed anywhere. There is no line item for it. Its valuation, and yes, for DIMO, it may be the most important asset it has. Leadership trust is the invisible engine that drives this value. It is the currency of credibility that flows from the boardroom to the front lines.

Trust allows us to think bigger, Pandithage says. "It gives us the confidence to take on challenges, knowing we are not alone."

In a country like Sri Lanka, where businesses have had to navigate volatility, that kind of confidence matters. It is a product of consistent leadership behaviour — where actions align with words even when the stakes are high. Because in the end, trust isn't built in easy times. It is forged through leadership resilience during difficult moments — when decisions are harder, when pressure is higher, and when the stakes part isn't the right one.

For DIMO, that has been the difference. Not just in building partnerships that last, but in becoming the kind of partner the world continues to believe in.

For more than eight decades, DIMO has built enduring global partnerships through trust, transparency, and ethical leadership. The May 2026 edition of the Echelon Magazine highlights how DIMO's trust-led leadership model continues to strengthen long-standing relationships with world-renowned principals while driving sustainable growth and shared success.

Leadership Excellence Award at the Global CEO Forum 2026

Executive Director of DIMO, Mr. Rajeev Pandithage was honoured with the 45 Under 45 Leadership Excellence Award at the Global CEO Forum 2026. The prestigious event concluded successfully on 21st May at the Hilton Colombo, celebrating Sri Lanka's emerging generation of business leaders and excellence.

This recognition reflects not only individual achievement, but also the guidance of mentors, the trust of partners, and the dedication of teams who continuously strive for excellence together.

Automation Solutions Achieves ISO/IEC 27001:2022 Certification

The Automation Solutions team of the Power Engineering Division was awarded the ISO/IEC 27001:2022 certification from LL-C (Certification) Czech Republic for its Information Security Management System (ISMS). The certification was officially handed over by the Country Representative of LL-C (Certification) Czech Republic. This achievement marks a significant milestone accomplished within a short period through strong teamwork and dedication. The success was driven by the collaborative efforts of the Power & Energy Division together with the IT, HR, Legal, and Compliance teams.

Sri Lankan - German Business Forum 2026

DIMO is proud to have been a Principal Partner of the Sri Lankan-German Business Forum 2026, an impactful three-day event that was held at ITC Ratnadipa, dedicated to building trusted partnerships and strengthening bilateral economic relations between Sri Lanka and Germany.

This prestigious event was graced by Chief Guest Hon. Dr. Harini Amarasuriya, Prime Minister of the Democratic Socialist Republic of Sri Lanka, alongside H.E. Dr. Felix Neumann, German Ambassador to Sri Lanka and the Maldives. Bringing together business leaders, policymakers, and industry experts, the event featured keynote addresses and insightful panel discussions covering critical sectors such as trade, logistics, sustainability, finance, investment, and emerging markets.

Demonstrating DIMO's commitment to advancing meaningful economic dialogue, Mr. Ranjith Pandithage, Chairman and Managing Director of DIMO contributed his expertise as both a keynote speaker and panellist, sharing valuable perspectives on strengthening bilateral collaboration and driving sustainable economic growth.

DIMO Academy Celebrates Sinhala & Tamil New Year 2026

DIMO Academy proudly celebrated the Sinhala & Tamil New Year Festival 2026, in an atmosphere filled with rich Sri Lankan cultural traditions and values, fostering unity, togetherness, and inclusivity within the DIMO community. The event served as a meaningful moment of joy, bringing together the DIMO community to honor the cherished cultural occasion of Avurudu.

The event was graced by the presence of Chairman and Managing Director of DIMO, Mr. Ranjith Pandithage, CEO of DIMO, Mr. Gahanath Pandithage, and Executive Director / CHRO of DIMO, Ms. Dilrukshi Kurukulasuriya along with the GMC Members of DIMO. Their presence added greater warmth and delight to the occasion, inspiring the students and staff of DIMO Academy to strengthen the spirit of cultural appreciation, unity and inclusivity within the DIMO community.

The celebration reflected strong cultural values and togetherness through the traditional rituals and Avurudu games conducted, forming memorable shared experiences and highlighting the commitment to establishing a people-centric environment at DIMO Academy.

Corporate Tractor Inspection Campaign Across the Ampara District

The DIMO Agri-Business After-Sales team conducted a Corporate Tractor Inspection Campaign across 13 locations in the Ampara District from 19th to 22nd May 2026, which succeeded in covering a total of 22 tractors. This campaign was initiated with the aim of fostering strong customer relationships and promoting the use of genuine spare parts, highlighting the awareness of DIMO after-sales services.

The campaign was conducted at several customer and institutional locations including Lak Golden Mango Limited Agriculture Sector Modernization Project, Dehiattakandiya Pradeshiya Sabha, Digamadulla Agri Business LTD, Uhana Pradeshiya Sabha, ASM Project – Dry Chilli (Lake Front Agro Ltd), Erakkama Pradeshiya Sabha, Samananthurai Pradeshiya Sabha, Kalmuna Municipal Council, Jumbo Peanut and Dry Chilli Processing Center – Komari, Pottuvil Pradeshiya Sabha, Star Agri Businesses Lanka Pvt Ltd, Coco Plantation, and Midleniya Seeds Farm. Through this initiative, the team further reinforced DIMO's commitment to delivering excellence beyond the scale with reliable after-sales support and maintaining consistent customer satisfaction across the agricultural sector.

Exposure Programme for the Students of Peradeniya University at the DIMO 800 Facility

The DIMO 800 facility welcomed members of the Automobile Society of the University of Peradeniya for an immersive learning experience designed to complement their academic studies. Through this engagement, students had the opportunity to gain practical knowledge and a deeper understanding of modern automotive technologies and service operations, with exposure to industry best practices and emerging developments in the automotive sector.

Representing the Faculty of Engineering, the students were given an in-depth overview of the Mercedes-Benz aftersales journey, modern workshop operations, and the international service standards upheld at DIMO. The visit provided valuable exposure to both Internal Combustion Engine (ICE) vehicles and the latest Electric Vehicle (EV) technologies, enabling students to gain insights into the evolving automotive landscape. They also had the opportunity to observe key workshop functions, including diagnostics, repair procedures, specialized tooling, safety protocols, and workflow management within a world-class automotive service environment.

Such engagements reflect DIMO's continued commitment to nurturing future engineering talent and strengthening industry-academia collaboration.

Tractor Handover Program for the Ministry of Environment

DIMO proudly supported a significant national conservation initiative through the supply of nine tractors to the Department of Wildlife Conservation, aimed at strengthening elephant management activities and enhancing field operations to address human-elephant conflict. The tractors were officially handed over by the Hon. Minister of Environment, Dr. Dammika Patabendi, to Mr. Ranjan Marasinghe, Director General of the Department of Wildlife Conservation, during a ceremony held at DIMO's premises in Dematagoda.

This event was graced by the presence of Group Chief Executive Officer Mr. Gahanath Pandithage, Executive Director Mr. Rajiv Pandithage, Deputy General Manager – Agricultural Machinery Sales Mr. Ruwan Wickramasinghe, and Manager – Agricultural Machinery Tender and Institutional Sales Mr. Roshan Wejithiya. Following Cabinet approval, a total of 294 vehicles were procured, including 16 double cabs, 84 single cabs, 181 motorcycles, and nine tractors, to support elephant management duties and other critical field activities carried out across the country.

Through this initiative, DIMO contributed to enhancing the Department's capacity to carry out conservation efforts more effectively and respond to operational challenges in the field, reflecting continued commitment to supporting national development priorities through innovative and dependable solutions that create a positive impact on communities and the environment.

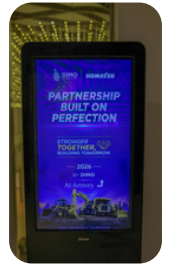

LOVOL Harvester: Pancha Maha Nidhanaya Phase 2

DIMO Agri Machinery successfully completed the second phase of the LOVOL Harvester Pancha Maha Nidhanaya campaign, demonstrating commitment to creating meaningful value for Sri Lanka's farming community. As part of this campaign, five lucky customers who purchased LOVOL Harvesters during the promotional period from 1st October 2025 to 31st March 2026 (corresponding with the "Maha" cultivation season), were selected as winners of DIMO Build (TATA Ace) trucks. The vehicles were handed over free of charge and delivered directly to the winners' residences between 2nd and 5th June 2026, ensuring a memorable and rewarding customer experience.

Recognized as one of the most significant customer reward initiatives in Sri Lanka's agricultural machinery sector, the LOVOL Harvester Pancha Maha Nidhanaya campaign further strengthened the presence of the LOVOL brand in the market while fostering deeper customer trust and loyalty. By rewarding customers with practical assets that support their livelihoods and business activities, this campaign reinforced DIMO's dedication to empowering the agricultural community beyond the provision of machinery alone. Through this initiative, DIMO reaffirmed its value of Customer Focus, recognizing customer loyalty while continuously striving to create rewarding experiences and long-term value.

Construction & Mining Machinery Customer Meet-Up in Kurunegala

The Construction & Mining Machinery Business Unit hosted a successful Customer Meet-Up in Kurunegala, with the aim of strengthening relationships with valued customers across the region. A highlight of the event was the ceremonial handover of two KOMATSU excavators to two key customers, underscoring DIMO's continued commitment to delivering world-class machinery solutions that support the growth and success of our customers' businesses.

The gathering brought together over 50 customers from the Kurunegala district, creating a valuable platform for engagement, knowledge sharing, and collaboration. The event provided an opportunity to connect with customers, gain insights into their evolving needs, and reinforce the trust that forms the foundation of our long-standing partnerships.

For DIMO, meaningful customer engagement remains at the heart of delivering exceptional experiences, strengthening long-term partnerships, and creating value that extends beyond products and services.

Power Tools Training Session at Veyangoda

DIMO Power Tools team organized a training session for 50 students from the District Vocational Training Center, Veyangoda on the 21st of May 2026. The session focused on the safe and correct use of power tools to ensure that students meet industry standards.

LMD Features DIMO's Agenda 2030 Vision

The June edition of the LMD Magazine featured DIMO's sustainability journey in its Corporate Profile section, highlighting the company's transformation from traditional sustainability reporting to embedding sustainability at the core of its business strategy. While DIMO has been a pioneer in sustainability since the early 2000s, the launch of its Sustainability Agenda 2030 in 2022 marked a significant shift towards integrating environmental, social, and governance considerations into every aspect of its operations. Built on the pillars of building a resilient business, creating resilient communities, and conserving a living planet, Agenda 2030 is driven by clearly defined leadership accountability and measurable KPIs.

The feature highlighted several initiatives that demonstrate DIMO's commitment to responsible growth, including biodiversity restoration efforts, comprehensive carbon footprint management, and the adoption of data-driven sustainability targets that guide long-term decision-making. The article also underscored the importance of cultivating a sustainability-focused culture across the organization. Through initiatives such as the "Rooted and Reimagined" internal engagement program, DIMO continues to empower employees to actively contribute to its sustainability ambitions. As the company progresses towards its 2030 goals, it remains committed to balancing business growth with environmental stewardship and social impact, reinforcing its position as a responsible future-focused corporate leader.

DIMO Healthcare Partners with ZEISS for Ophthalmic Solutions

DIMO Healthcare, in collaboration with ZEISS, participated in the 15th Colombo Retina Meeting organized by the Association of Vitreo-Retina Specialists in Sri Lanka. The event provided an excellent platform to showcase advanced ophthalmic solutions and cutting-edge technologies, highlighting innovations that enhance precision, improve clinical outcomes, and contribute to the advancement of eye care standards.

DIMO Lighting Solutions Lightens SLTA Courts

DIMO Lighting Solutions has been officially commissioned by the Sri Lanka Tennis Association (SLTA), in collaboration with the Sri Lanka Tennis Premier League (SLTPL), to design and install international-standard floodlighting systems for its hard courts. Funded through the SLTPL Tennis Development Fund, the project represents a significant step forward for the advancement of tennis in Sri Lanka.

This appointment reflects DIMO's expertise in delivering high quality solutions that meet global standards while supporting the development of key national infrastructure. The installation of international-standard floodlighting will enable high-caliber evening training sessions, facilitate local tournaments, and create opportunities for international-standard play, enhancing the overall experience for players and the wider tennis community. Groundwork for the project is scheduled to commence in the first week of June. Through this initiative, DIMO Lighting Solutions is proud to leverage its engineering capabilities to deliver world-class infrastructure that contributes to athletic development and fosters local talent, supporting the continued growth of the sport in Sri Lanka.

DIMO at the Youth-Corporate Climate Synergy Forum

Biodiversity Sri Lanka (BSL) marked World Environment Day 2026 by hosting the Youth-Corporate Climate Synergy Forum on 10 June 2026 at the Bandaranaike Memorial International Conference Hall (BMICH), in collaboration with the British Council Sri Lanka and Dilmah Conservation. Held under the global theme #HowForClimate, the forum created a dynamic platform for young changemakers to engage directly with corporate sustainability leaders and industry experts. The event featured keynote addresses by Dr. Lalantha de Silva, emphasizing the importance of discipline, commitment, and leadership among youth in driving future environmental change, along with rapid-fire youth presentations, climate-focused discussions, and the launch of the Climate Synergy Hub, fostering meaningful dialogue on climate action and sustainable development.

Senior Manager - Sustainability at DIMO, Mega Ganeshan participated in the NextGen Climate Talks panel alongside Rishan Sampath of Dilmah Conservation, Nuwan Pathirana of Sampath Bank, and Hashan Cooray of Jetwing Hotels, sharing insights on corporate sustainability and youth engagement. DIMO also contributed to the Climate Synergy Hub, joining organizations including Neptune Papers, Jetwing Hotels, Dilmah Conservation, Pan Asia Bank, Virtusa Sri Lanka, Sampath Bank, and The CBL Group in mentoring the British Council's Youth Climate Ambassadors. Through this participation, DIMO reinforced its commitment to empowering future leaders and advancing collaborative climate action through meaningful stakeholder engagement.

The Colombo Briefing Podcast: Shaping the Workforce of Tomorrow

The latest episode of The Colombo Briefing podcast brought together industry and education perspectives to explore one of Sri Lanka's most pressing development priorities; creating a workforce equipped for the demands of a rapidly evolving economy. Hosted by Martin Klose, Chief Delegate of AHK Sri Lanka, the discussion featured Deputy General Manager of DIMO Academy, Mr. Vimukthi Randeny, who shared insights into how vocational training can play a transformative role in addressing skills gaps and enhancing employability.

The conversation highlighted the importance of aligning education with real-world industry requirements, drawing comparisons between Sri Lanka's vocational training landscape and Germany's renowned dual education system, and emphasized on the need for practical, industry-integrated learning experiences.

As Sri Lanka continues its journey toward economic growth and competitiveness, collaboration between industry stakeholders, educational institutions, and international partners remains essential. The discussion underscored a shared vision: fostering a future-ready workforce that can contribute meaningfully to national development while meeting the evolving needs of modern industries. By strengthening the connection between learning and employment, DIMO Academy is helping shape a more skilled, resilient, and globally competitive generation of talent.

DIMO Energy Creates a Milestone in Clean Energy

DIMO Energy has reached a significant milestone in Sri Lanka's renewable energy journey with the successful inauguration of its solar capacity in Galle. Comprising four solar power plants with a combined installed capacity of 18 MW, the project represented a major step forward in supporting the nation's transition towards a cleaner, more sustainable energy future. Designed to harness the power of the sun and convert it into long-term value, the solar facilities are expected to generate more than 33.6 million kWh of clean electricity annually. The renewable energy produced will be supplied to the national grid, contributing to greater energy resilience while reducing dependence on conventional energy sources.

The environmental benefits of the project are equally significant. By offsetting approximately 12,945 tons of carbon emissions each year, the solar portfolio will play an important role in mitigating climate change and preserving natural resources for future generations. This achievement reflects DIMO Energy's ongoing commitment to advancing sustainable solutions that create positive environmental and societal impact. As the country accelerates its transition towards renewable energy, DIMO Energy remains committed to delivering solutions that drive economic progress, strengthen energy security, and contribute to a more sustainable future for all.

Power Tool Training at Kurunegala

A Power Tool Training Session for 53 students at the National Vocational Training Center in Kurunegala was successfully conducted on the 9th of June, 2026, focusing on the safe and proper use of power tools, equipping participants with the practical knowledge and skills required to meet industry standards. Students representing the Automobile, Electrical, Aluminum, and Auto Painting streams participated in the training, gaining valuable insights into the correct handling and application of power tools in their respective fields.

Mangrove Restoration Project with the Wildlife Conservation Society of Galle

As part of DIMO's partnership with the Wildlife Conservation Society - Galle, under the Mangrove Restoration Biodiversity Project, several awareness and educational programmes have been conducted to promote mangrove conservation among local communities. These initiatives have successfully educated and raised awareness among approximately 300 individuals on the importance of mangrove ecosystems, highlighting their ecological value and the need for their long-term conservation and protection.

Corporate Tractor Inspection across Colombo / Gampaha / Kurunegala Districts

DIMO Agribusiness successfully concluded the Corporate Tractor Inspection Campaign from 15th to 20th June 2026, reinforcing its commitment to customer satisfaction, equipment reliability, and after-sales excellence. The initiative covered 19 locations across the Gampaha, Colombo, and Kurunegala districts, reaching a diverse customer base and strengthening relationships with tractor owners and fleet operators. During the campaign, DIMO's technical teams conducted comprehensive inspections on 33 tractors, providing customers with valuable maintenance guidance and expert technical support. The campaign focused on ensuring optimal machine performance while helping customers identify potential maintenance requirements before they develop costly repairs.

The inspections were carried out across several key locations, including Colombo, Moratuwa, Kesbewa, Kurunegala, Miriswatta, Katunayake, and Puttalam. Notable institutions visited during the campaign included Lyleland International School - Kurunegala, the Forerate Demonstration and Training Farm in Pannala, as well as the Municipal Councils of Colombo, Dehiwala, Moratuwa, and Kesbewa. The successful completion of the campaign reflects DIMO's continued dedication to delivering reliable solutions and long-term support to customers, ensuring that their equipment remains productive, efficient, and ready to meet operational demands.

CINEC Students Experience Modern Automotive Technologies at DIMO 800

The academic and support staff of CINEC Colombo Campus together with 12 Automotive Engineering students visited the DIMO 800 facility on 19th June 2026 for an industry exposure program aimed at enhancing their understanding of modern automotive technologies and operations. The session was conducted by DIMO Tribe Member, Kasun Geethanjana who provided participants with valuable insights into the operations of DIMO 800, while introducing them to key areas such as electric vehicle (EV) systems, high-voltage (HV) safety practices, diagnostics, and repair processes.

The session offered students a practical perspective on emerging automotive technologies and industry best practices. The programme also underscored the strong industry-academia collaboration between DIMO and CINEC, supporting the development of future automotive professionals through knowledge sharing and experiential learning.

MoveFlex Expands Its Cold Chain Capabilities in Elakanda

The successful completion of a state-of-the-art cold chain facility in Elakanda by DIMO Engineering Solutions strengthens DIMO MoveFlex's capabilities and represents a strategic expansion of its third-party logistics (3PL) services beyond internal logistics support. The new facility enables DIMO MoveFlex to offer comprehensive cold storage solutions for third-party clients, enhancing its ability to manage a broader range of products through ambient, chilled (4°C), and frozen (-22°C) storage environments. Equipped with 18 freezer containers, the facility ensures reliable temperature control and product integrity while supporting diverse customer requirements.

In addition to temperature-controlled storage, the expanded 3PL offering includes secure warehousing, efficient inventory management, real-time reporting, transportation solutions, reverse logistics, and other value-added services which position DIMO MoveFlex to deliver integrated logistics solutions tailored to the evolving needs of its customers. The project also showcases the strength of cross-functional collaboration within the DIMO Group, with DIMO Engineering Solutions delivering innovative solutions that support business growth and operational excellence.
